

Is BISM's College Prep Program right for you?

- Have you graduated from high school and are looking to have a smooth transition into college?
- Have you recently experienced vision loss in high school or college and would like to learn non-visual techniques?
- Are you interested in building confidence and independence while starting or continuing your education?

If you answered yes to any of these questions, the College Prep aspect of the CORE adult program at Blind Industries and Services of Maryland (BISM) will fit your needs!

College Prep is geared towards recent high school graduates and current college students. Participants are able to earn college credits while simultaneously building confidence and learning blindness skills that will promote success in school, employment, and beyond!

For the duration of one or two semesters, College Prep participants will experience all that college has to offer with BISM's support and guidance.
