6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Ensure adequate ventilation. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS. |
| Methods and materials for containment and cleaning up | Large Spills: Stop the flow of material, if this is without risk. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. |

7. Handling and storage

| Precautions for safe handling | Wear appropriate personal protective equipment. Avoid contact with eyes. Provide adequate ventilation. Do not mix with other chemicals. Observe good industrial hygiene practices. |
| Conditions for safe storage, including any incompatibilities | Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Keep out of the reach of children. |

8. Exposure controls/personal protection

| Appropriate engineering controls | Provide eyewash station. Use general ventilation. |
| Individual protection measures, such as personal protective equipment | If contact is likely, safety glasses with side shields are recommended. Not normally needed. For prolonged or repeated skin contact use suitable protective gloves. No personal respiratory protective equipment normally required. |
| Eye/face protection | Hand protection |
| Skin protection | Respiratory protection |
| General hygiene considerations | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |
